REDUCING HEADCOUNT?

How businesses going through change
and transition can get support from CTRS

trs-system.co.uk/construction

RESTRUCTURING & REDEPLOYMENT

The CTRS platform is a free service providing extensive support to assist organisations of all sizes considering redeployment and redundancy options.

The earlier the conversations start, the more can be done to help.

Skilled workers can be found new roles rather than being lost to the Industry. Businesses can save on redundancy costs.

All of this can be done on a bespoke and confidential basis.
