

Aviation Skills Retention Platform

Supporting jobs and skills
in the Aviation Sector

The Aviation Skills Retention Platform (ASRP) has been created to support skills retention within the UK Aviation industry. It is designed to help talented individuals showcase their experience and expertise while helping businesses find the skills they need.

For individuals, the ASRP provides a tailored portal through which candidates can register their personal profile and CV and search for vacancies in aviation and across other key sectors. Companies can also search for and contact candidates directly through the platform.

ASRP is a not for profit programme using the TRS platform and is supported by the Department for Transport, business associations, member companies, professional institutions, unions and other stakeholder organisations.

The vision for this initiative is to support the retention of people and skills, as well as providing a platform that aligns as a wider strategic solution for the recovery of the aviation industry and its development needs.

Key features of the ASRP

- | The platform works by promoting you directly through your online profile and CV to interested organisations, both regionally and nationally
- | A simple, easy to use and feature rich system enabling you to search for vacancies. Companies can also search for you and connect directly
- | The opportunity to quickly set up automated job alerts and saved searches to keep in touch with any new vacancies
- | A 24/7 presence providing direct exposure to interested companies, together with access to their vacancies
- | Tracking and management of your applications and any expressions of interest you receive
- | Visibility of sector organisations involved in the ASRP with access to the latest vacancies, news and events
